

# VF-1 WOLFPACK DECAL SET

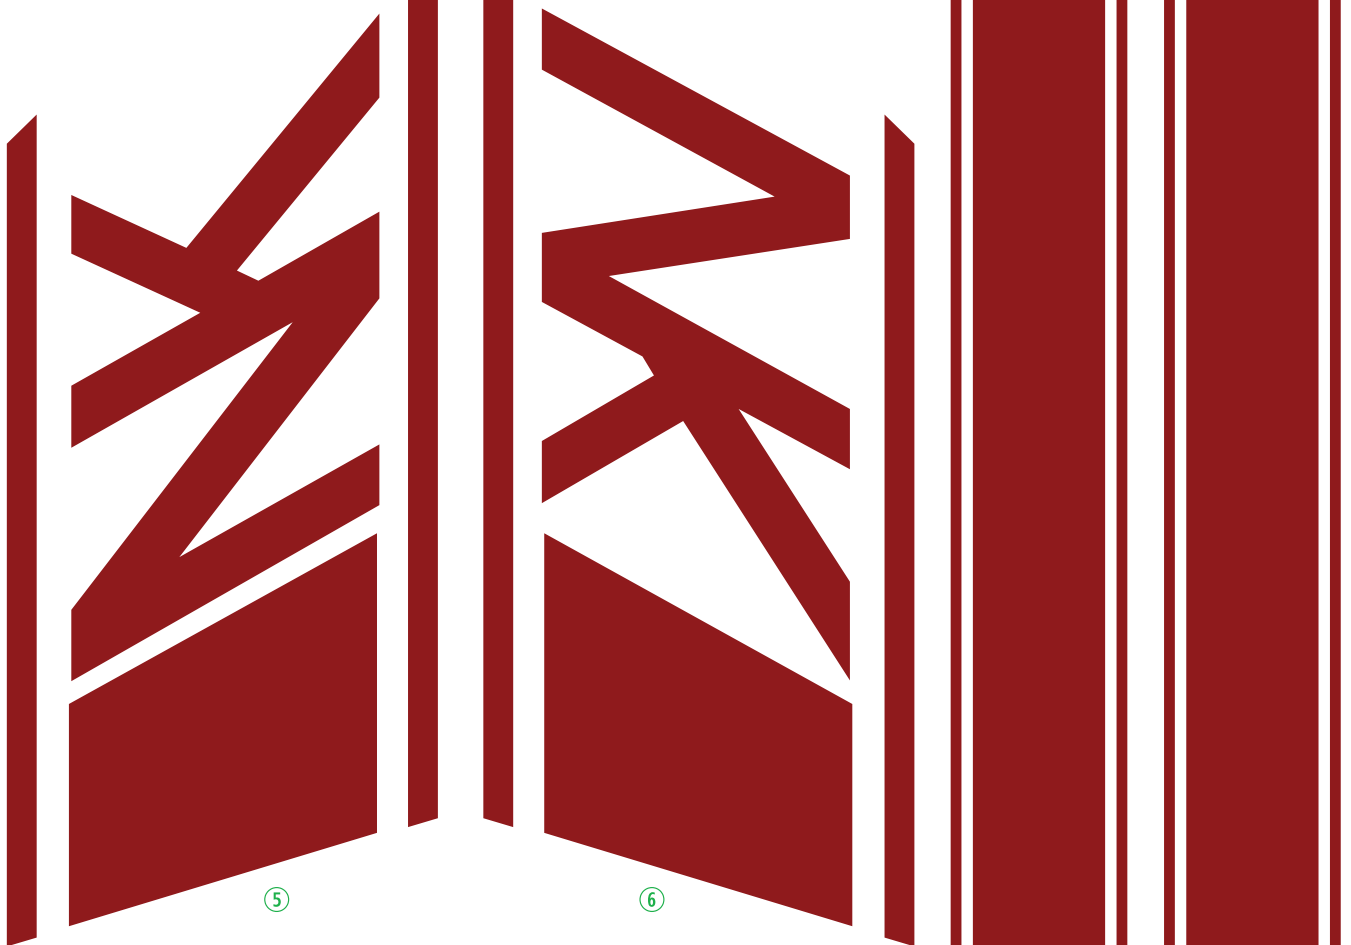

## for 6mmFlyRC's F-14 Tomcat

First established in 1922, there were four distinct VF-1s that underwent various designation changes and disestablishments. The fourth VF-1 was established in 1972 and was equipped with the F-14 Tomcat. A noteworthy event occurred in 1991 when an F-14 from VF-1 shot down an Iraqi Mil Mi-8 Hip helicopter - the only air-to-air kill by a Tomcat in Desert Storm. The squadron was disestablished in 1993.

The aircraft depicted in this decal set is a high visibility F-14A CAG bird from the late 1970s.

*This decal set is not to be modified or sold.
