

# ISRAELI AIR FORCE F-15I RA'AM

## PATISHIM SQUADRON

### AIRCRAFT #267

for 6mmFlyRC's F-15 Eagle

The F-15I Ra'am (Hebrew for "Thunder") is a variant of the F-15E Strike Eagle made especially for the Heyl Ha'avir (Israeli Air Force). A number of changes were made to the F-15E to suit the IAF's requirements, the most significant of these being the incorporation of advanced Israeli avionics. The first F-15I rolled off the production line in late 1997 and the first planes arrived in Israel in early 1998. Israel has 25 F-15Is, operated by the Patishim (Hammers) squadron. This decal set depicts aircraft #276 in markings it bore around 2001.

*Provided exclusively to 6mmFlyRC for inclusion with their kits.  
This decal set is not to be modified, sold, or distributed by any other company.*
